EDUCATION

Master of Science in Computer Science and Information Systems | GPA: 3.56 / 4.0

University of North Carolina Wilmington | 2025 – 2026

Bachelor of Technology in Computer Science

St Peters Engineering College | 2021 – 2025

EXPERIENCE

Teaching Assistant

University of North Carolina Wilmington | August 2025 – May 2026

- Supported faculty in delivering course content and providing academic guidance to students.
- Conducted office hours, graded assignments, and assisted with lab sessions to improve student comprehension.
- Collaborated with instructors to develop course materials and assessment criteria.

PROJECTS

Multiclass Text Classification Web App

- Developed a real-time web app using Flask, HTML, and CSS to classify user-input text into categories such as spam, news, and sentiment.
- Applied NLP preprocessing (tokenization, lemmatization, TF-IDF) and trained SVM, KNN, and Random Forest models for classification.
- Improved content moderation efficiency by 60% compared to manual review methods.

AI-Powered Scheduling Assistant Bot

- Built an intelligent assistant using Dialogflow to process natural language commands for event scheduling.
- Integrated Google Calendar and RTM APIs to automatically schedule and manage events with reminders.
- Reduced manual scheduling time by approximately 70%, enhancing productivity.

Fake News Detection Using NLP and ML

- Created a fake news detection model using Logistic Regression and LSTM to classify articles as real or fake.
- Processed news datasets with NLP techniques (tokenization, stop-word removal, TF-IDF vectorization).
- Achieved 92% classification accuracy on the validation dataset.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java
- **Databases:** MySQL, PostgreSQL
- **Web Technologies:** HTML, CSS, FastAPI
- **Tools:** Git, MS Office (Word, Excel, PowerPoint)

CERTIFICATIONS

- Cisco Cybersecurity Fundamentals
- Responsive Web Development – Coursera
- Data Analytics with Python – IBM SkillsBuild
